## Govt to introduce bill in LS to repeal farm laws on Monday

**STATE TIMES NEWS** NEW DELHI: To repeal the three contentious farm laws. the government on Monday will introduce in Lok Sabha a new bill, which states that though "only a small group of farmers are protesting" against these legislations, the need of the hour is to take along everyone for inclusive

growth. The bill has been listed for introduction and passage in Lok Sabha on the first day of

the Winter Session of Parliament on Monday.

The bill was passed by the Union Cabinet after Prime Minister Narendra Modi

made an announcement that all three farm laws will be repealed in the Winter

The bill will be introduced by the Union Agriculture Minister Narendra Singh Tomar in the house.

The ruling BJP and main opposition party Congress have issued whips to their

MPs to be present on the day. "Union Agriculture Minister Narendra Singh Tomar will move for leave to introduce a Bill to repeal the Farmers (Empowerment and Protection) Agreement on Price Assurance and Farm

Services Act. 2020, the

Despite the prime minister's surprise announcement to repeal the bills, farmers unions have announced that they will continue with their protest until their other demands are not met. However, they have called off their proposed tractor

# Pak drone carries explosives, Indian drone carries COVID vaccine: Dr Jitendra

## STATE TIMES NEWS

JAMMU: Launching the Drone driven aerial delivery facility to transport COVID vaccine as well as Emergency Medicines to inaccessible and difficult areas in a short span of time, Union Minister for Science & Technology, Dr Jitendra Singh on Saturday said that while the Pakistan Drone carries explosives to spread terror and threaten human lives, the Indian drone has assumed the role of a COVID warrior to carry life saving vaccine and life saving medicines for safety and well-being of mankind. This indeed is the fundamental difference between the two countries, he said

Referring to the first consignment of 50 vials of COVID vaccine which was dropped by the Drone near the International Border (IB) in Marh area, Dr Jitendra Singh said, the "Octacopter" Drone which was developed indigenously

at Bengaluru at the initiative of of Scientific Industrial Research(CSIR) under the Ministry of Science & Technology, is truly a messenger of peace, while Pakistan is using Drone to disrupt peace.

The Indian Drone has carried to the International Border the message of protecting lives from COVID and, ensuring health and well being for everybody, he said.

Under Prime Minister Narendra Modi, Dr Jitendra said, India's Vaccination drive has turned into a mass campaign and every citizen is trying to make an appropriate contribution to it.

"We, in the Ministry of Science & Technology, also decided to join Prime Minister Modi's 'Har Ghar Dastak' campaign by developing a Drone which would reach households in far-flung and difficulty areas which lack means of transport and thus the Drone would

Union Minister for Science & Technology Dr Jitendra Singh at the formal launching of Drone-driven aerial delivery of COVID-19 vaccine, at Jammu on Saturday

perform the function of knocking at the door of every home to ensure that not a single person remains without vaccination", he added.

On the occasion, Dr Jitendra, in the presence of Advisor Health to Lieutenant Governor Jammu &

Kashmir Rajeev Bhatnagar, formally handed over the first consignment of COVID vaccine to Drone operators, who then mounted the same on the Drone before it took off for its air journey.

Dr Jitendra said that the suc-

vials of COVID-19 Vaccine through Octacopter will go a long way in fulfilling Prime Minister's "Har Ghar Dastak" campaign for special house-to-house Covid-19 vaccination drive.

He said, India has administered over 120 crore total doses of the COVID-19 vaccine so far, but there is need for adopting unconventional methods to vaccinate 65 percent population living in rural and remote inaccessible hilly areas. The Minister informed that the Octacopter can carry a payload of 10 kg with range of 20 kilometers and it can fly at an operational altitude of 500 meters AGL and at a maximum flying speed of 36

Referring to the recent monthly radio programme Mann ki Baat, where PM Modi said, "One of the things that is capturing people's imagination is the usage of drones in India", Dr Jitendra Singh informed that more such live demonstrations will be carried out by CSIR in actual remote inaccessible hilly areas like Kishtwar, Rajoouri, ■ CONTD ON PAGE 9
