

UNION TERRITORY OF JAMMU AND KASHMIR

OFFICE OF THE EXECUTIVE ENGINEER JAL SHAKTI MECH. GROUND WATER DRILLING DIVISION JAMMU SHOR  
T T E R M N O T I C E I N V I T I N G e - T E N D E R

E-NITGWD/191 of 2021-22 Dated 19.01.2022

On behalf of the Lt. Governor, UT of J&K, The Executive Engineer Jal Shakti Mech. Ground Water Drilling Division Jammu invites **tenders** by e-tendering mode from reputed boring/drilling contractors/firms registered with Jal Shakti Department Jammu by Direct Rotary Method/Any Other Suitable Method on **EPC MODE** who are equipped with their own drillings rigs/equipments/allied machinery to execute the job in time bound manner.

Name of the Work	Name of the Division	Cost of Tender Document/ Tender Fee (in Rs.)	Qty.	Estimated cost (value of work) (in Rs.)	Validity of Rates
Deep drilling, development and stabilization of tube wells upto 225 meters below ground level by Direct Rotary Method/Any Other Suitable Method of Drilling on EPC Mode at Rakh (Manchar Gopala) in Sambar Constituency of District Samba under Capex Budget.	Jal Shakti Mech. Ground Water Drilling Division Jammu	2000.00 (Non-Refundable) Deposited in Govt. treasury through e-challan under the receipt head 0215 in favour of the Executive Engineer, Jal Shakti Mech. GWD Div. Jammu payable at Jammu mentioning same work	01 No.	80.00 lacs	Bid shall be valid for one Year.

- Tenders documents can be seen and downloaded from the website <https://jktenders.gov.in> from 19.01.2022 to 27.01.2022.
- The pre-bid meeting if desired, shall be held in the office of the Executive Engineer Jal Shakti Mech. Ground Water Drilling Division Jammu on 21.01.2022 at 1300 hrs.
- The Bid shall be uploaded on the website <https://jktenders.gov.in> from 21.01.2022 (1400 hrs.) to 27.01.2022 (1800 hrs.).

**Subject: Adoption of procedure for compilation of examination scores of for multi session/slot papers for the various posts Junior Assistant, Cadres Clerk, Cashier, Jr Assistant /Computer-cum-Jr Assistant/ Clerk/Store Attendant and Welfare Organizer- advertised vide Advertisement Notification Nos 04, 05, 06 and 07 of 2020 and 01, 02 and 03 of 2021- regarding.**

IMPORTANT NOTICE

It is hereby notified for information of all such candidates who are scheduled to appear in the Computer Based Written Test (CBT) for the posts of Junior Assistant, Cadres Clerk, Cashier, Jr Assistant /Computer-cum-Jr Assistant/ Clerk/Store Attendant and Welfare Organizer, advertised vide Advertisement Notification Nos 04, 05, 06 and 07 of 2020 and 01, 02 and 03 of 2021, being conducted in multiple shifts/batches w.e.f. 20th January to 24th January 2022, that the score of the candidates will be subjected to Normalisation Process called Equi-Percentile Equating (a widely adopted & accepted method of score normalisation in multi-batch examinations).

The Raw score of the candidates will not be shared. The percentile ranks so derived & equated will be used as input criteria to finalise the merit list.

Frequently Asked Questions Equating of Scores on Multiple Forms

- Why is Equating of scores on multiple test forms (also known as multiple test Question papers) needed?**  
In mass conducted large-scale high-stake tests or examinations spread over a window of several days and several administrations, it has not been practically possible to use a single form of test in a subject, either for entrance/admission or for recruitment/achievement. On a single day, one may use a single form with shuffled item numbers and/or reshuffled options of the items or multiple forms. If there were several different forms of test used on different days and/or different administrations/batches in a day should be first of all ensured that they are equivalent to each other. i.e. designed to be equivalent. In other words, every item in a test to a corresponding item in the other format matching the content, the ability cluster tested and the difficulty level.  
It is, however, a requirement that a single reference test paper should be created with the same content template that will be used to generate several multiple forms.
- What is Equating and what are its Results?**  
Equating is a statistical process that is used to adjust scores on test forms so that scores on the forms can be used interchangeably. It adjusts for differences in difficulty among forms that are built to be similar in difficulty and content.  
The outcomes after equating are that the reference form test scores remain in gas they are and the test scores on each of the other forms are equated to the reference form test scores by a method selected for Equating resulting in test scores in all forms measured to the same scale.
- Are there several methods of Equating?**  
Yes, there are several methods of Equating and they are as follows:  
a) Mean Equating  
b) Median Equating  
c) Linear Equating (Based on Mean and S.D.)  
d) Equi-Percentile Equating  
e) Equating using Item Response Theory  
f) Anchor Test Equating  
**For the given examination, Equi-percentile equating method will only be used:**  
Equi-percentile Equating involves percentile rank or score to be found for all scores in each of the forms in do full forms and clubbed together to generate a merit list. This uses the distributions of scores on the two test forms (X&Y) and finds a set of pairs of equivalent scores such that the proportion of individuals with each score below percentile rank is the same for the two test forms.  
**Percentile rank for a given raw score indicates the percentage of a student who score below this mark.**  
Example: If in two theoretically designed equivalent test forms administered to Group 1 and Group 2, the maximum mark being 20, a student getting 12/20 in Group 1 has (say) 65% of students below his score then his percentile rank is equivalent to 65th Percentile Rank. On the other hand, if in a test, a student getting 13/20, in this case as well having 65% of students scoring below 13 in his Group, then the score 13 has a 65th percentile rank. In the above example, therefore of 12 in Group 1 is equal to score of 13 in Group 2, with both having 65th Percentile Rank.
- Have researchers or psychometricians recommended Equi-percentile Equating method?**  
Yes, Researchers or psychometricians after prolonged and extensive research have come recommended Equi-percentile Equating method.
- Why Equi-percentile Equating method is preferred or chosen for the given examination?**  
Among the methods using Classical Test Theory (CTT), Equi-percentile Equating turns out to be the best both from a statistical point of view and from purely common sense point of view. The constitution of the reference forms, the number of items in it, content-wise, ability-wise and difficulty-wise, to be designed theoretically the same with every other form. This method is found to be satisfying both statistical rightness (dharma) and legal propriety (everyone is the same before law, no advantage or disadvantage to anybody and a level playing field).
- Are there instances of Equi-percentile equating getting through a legal scrutiny in India?**  
Yes. On the grounds of statistical rightness and legal propriety, the judgement of courts is were  
In favour of Equi-percentile Equating method adopted for publishing test results that involved multiple batches or test forms. The Apex Court in India provided a decision in favour of a High Court Judgment, upholding the Equi-percentile equating method, thus lending legal authenticity to the Equi-percentile equating method for multi-batch examinations.
- When many multiple forms (supposedly and nearly equivalent to each other) are used, which of them is to be taken as reference group/batch-hand why?**  
The usual practice in all multi form testing scenario, a pre-planned carefully constructed (according to an agreed content template) will form the basis for generating equivalent multiple forms. Hence, this reference form at is prior decided and used. When this is not the practice as it happens with many cases, the batch with the test scores yielding for its maximum score, i.e. the highest percentile rank score will be taken as the reference batch. The simple reasons the percentile rank generated for this form will be a larger range that can accommodate all the ranges of percentile ranks of other multiple forms test scores so that there are no outliers. This is the practice evolved after considerable research and experimentation with them over a period of time, accepted and recommended as a best practice in the industry.
- How is the equivalence of multiple test forms ensured in practice?**  
In practice there are two options, the first option is Angoff's method by getting several SMEs to create collectively a sample paper specifying contents, ability level tested and the guessed value of item difficulty and use this test paper to drive creation of similar other papers, matching item by item, the specification of content, ability and item difficulty of the first set. This is the long-drawn process and it requires quite a bit of hard work, discussion amongst the SMEs, time and cost. The second option, a better one at that, is to use the item bank already available with the verified and tested content, ability tested and difficulty with the help of a content template specifying the numbers that are decided to have in each of the content, ability cluster and difficulty. This will ensure multiple forms of same test difficulty with negligible varying range of difficulty, item.
- Can any form become an act of circumstantial compulsion and if so, how would the examinee deal with it?**  
Yes, it is possible and this happened and may continue to happen. That may be a force of circumstance that will render an additional test to be held on a later date for which already a test form is available or is to be created and in absence the principle of accommodation of the examinee will be considered for creating the additional test paper. However, Equi-percentile Equating can be applied even though the subsequent group that has not been planned to have more or less the same number of test takers can be taken up and Equi-percentile Equating may again turn out to be the best method.
- Some Exam Bodies come out with some test takers getting 100 Percentile Rank. Is that acceptable? If not, Why?**  
This phenomenon has been seen in some test providers without a clear understanding of what percentile rank means. For a given raw score, the percentile rank score gives the percentage of test takers whose scores are below this score. If by some chance of magnification and statistical interpretation, any score can have 100 percent of test takers below this score. This means the concerned score is also included which is absolutely erroneous. They fail to understand the significance of the correct definition of percentile rank which is the percent of cumulative frequency at this score level. This means the midpoint of cumulative frequency of the score level is sum of cumulative frequency of the score level and the cumulative frequency of the next lower score divided by 2 and therefore, the percentile rank will be strictly less than 100.
- Is it possible to generate Percentile Rank manually using Excel or should a software be used? Can Equated Score as well be manually done with the help of a software?**  
If percentile rank is generated manually using excel, there is a built-in check that the top score cumulative frequency will be equal to the number of test takers. However, the hidden details of this are not seen in the software used.  
For equated scores, it is always preferable to use a software especially developed for it since the manual calculations will be extremely time consuming and prone to errors.
- Experts have rated Anchor Equating higher than that of Equi-percentile Equating. Why isn't one recommended for Indian conditions?**  
It can be appreciated that Anchor Test Equating involves a definite number of items scaled and anchored to item to be placed as an integral part of every form or test paper. An instruction given to the test takers will have to say that the score on the anchor test items for any test taker will not be counted for final test score conclusion only used as a means to provide an equating algorithm to be applied to the rest of the item scores in each form. This instruction will not be seriously taken by Indian test takers who may choose not to attempt or take it seriously and thus, the whole process will be violated. For this reason, Exam Body's choice is not to go for Anchor Equating.
- It is found that when two test forms are used and scored, it may become inevitable for some of the items from one of the test forms due to inadvertent errors, thereby reducing the number of items from that of the previous test form. How can this be dealt with?**  
True, this situation is very likely and occurs in practice. In case of 100 items were used in each test form and in one form, two items were found to be invalid and unacceptable. Hence, they need to be removed in which case there were two options to deal with.  
a) Score the test form of 98 items for 98 and work out the percentile rank of these scores.  
b) Give 2 marks to every test taker (assuming each item carried one mark for right answer), no matter whether he attempts/answered it right or wrong making 100/100. The percentile rank for these scores will be found out.  
There will not be any change in the percentile rank in both the cases and therefore the merit list. Certainly, there will be changes in equated scores.  
In case of study, strange situation had arisen with three different merit lists with multiple forms, the first day two of them and subsequent day three others. Test takers were drawn for these 5 test forms from different districts, the numbers being small for each batch. The scores on these multiple forms were equated using the Equi-percentile Equating method (the legally sanctioned format) and the merit list created. The merit list is the combination of different batches taking different test forms and from different districts each. A query was sent for seeking district-wise merit list if that possible? If so, how and if not, why?  
Then multiple forms' scores have been converted into percentile rank/scores considering each batch and the test takers. The merit list was derived putting them together, their percentile scores arranged highest to lowest to generate an overall merit list. This is the most accurate method for the given case and district-wise merit list is required, they can be taken out of this overall merit list applying the cut-off score on percentile rank as decided by the Exam Body. There is no other way to work out an additional merit list by taking district-wise test takers (they take different forms and PR does not mean anything to them). So, the simple answer is district-wise merit list is a part of overall merit list only.

Notification No. 005-BOPEE of 2022

Dated 19-01-2022

Whereas, consequent upon declaration of the NEET PG 2021 result by the National Board of Examination (NBE) on 28-09-2021, a tentative score list on the basis of NEET data received by the BOPEE from Department of Health & Family Welfare, Government of India, was notified vide Notification No. 113-BOPEE of 2021 dated 20-10-2021; read with Notice No. 072-BOPEE of 2021 dated 25-10-2021, Notice No. 080-BOPEE of 2021 dated 27-11-2021, Notice No.081-BOPEE of 2021 dated 02-12-2021 and;

Whereas, the Board, vide Notification No 148-BOPEE-2021 dated 16-12-2021, notified the list of candidates under Sports Category along with ranks. The candidates were also afforded an opportunity to make representation(s), if any, before the Board upto 22-12-2021 and;

Whereas, the Board has not received any of the representation(s)/ complaint(s)/ response(s) against the list notified vide Notification No. 148-BOPEE of 2021 dated 16-12-2021 and the sports category list was treated as final;

Whereas, vide Notification No. 002-BOPEE of 2022 dated 08-01-2022 read with Notice No. 001-BOPEE of 2022 dated 12-01-2022, in which eligible candidates were advised to register and upload their documents on the BOPEE website for verification/update of category status, through online mode w.e.f. 11-01-2022 to 15-01-2022, which was subsequently extended upto 16-01-2022 due to some technical snag in the BOPEE Website before the Provisional UT Merit List (PML) could be prepared and notified/uploaded on the official website [www.jkbopee.gov.in](http://www.jkbopee.gov.in) of the BOPEE.

Whereas, online registration forms and the documents have been scrutinized by the Board, and, inter alia, it has been found/ noticed as under:

- Some of the candidates who had not qualified as per the cut off declared by the NBE have also registered themselves and submitted their documents through online mode, and their candidature devoid of any merits has been rejected.
- Some candidates who have filled up registration forms and whose forms are deficient due to non-issuance/ availability of one or more document(s) (which includes Domicile certificate, UT/MCI registration etc.) from head of respective/concerned departments, due to Covid-19 situation, have been provisionally approved subject to the condition that they shall submit all the deficient documents along with other relevant documents as required by the Principal of the college/Institution at the time of admission to respective college/Institution, if selected.
- Few candidates have filled up the preliminary registration form only but have not uploaded any of their document(s) at the time of registration (as flagged with \*\* mentioned in Remarks column of Annexure "A" and therefore these candidates shall be given last opportunity to submit their deficient document(s) physically at BOPEE Office Jammu/Srinagar upto 22-01-2022 (till 02:00 pm), otherwise their candidatures shall be cancelled.
- The candidates who have uploaded Difficult Area Certificate but the period mentioned in the certificate uploaded by them is less than one year of the cut-off date for online registration fixed by the Board i.e. 16-01-2022, and also the candidates who have not uploaded the Difficult Area Certificate, have been considered under OM Category candidates provided that they are eligible within cut-off merit/score/ or have a valid category certificate and fall within the cut-off category score, as the case may be.
- The candidates who have filled CDP category but uploaded old certificate are provisionally included in the PML and have been allowed to participate in the online counselling process subject to the condition that they shall submit CDP certificate as per the format available on BOPEE website vide Notice No. 083-BOPEE of 2021 dated 16-12-2021.
- The candidates whose 'category certificate' is deficient shall have to resolve the same by submitting the requisite valid category certificate document physically at BOPEE office Jammu/ Srinagar upto 22-01-2022 (02.00 p.m.) failing which they shall be considered in open merit category without any further notice.
- No document(s) shall be accepted through e-mail.
- Candidates who have been granted admission during 2018, 2019 and 2020 & are either pursuing PG courses or have left the same midway have been debarred for registration 2021 as per SRO 48 of 2018 dated 30-01-2018.
- Such candidates, who have registered themselves under some reserved category but do not possess the valid category certificate, shall be considered as OM candidates subject to their eligibility in the OM. Similarly such candidates, who have uploaded income certificate claiming benefit under P&B category but whose annual income exceeds Rs. 70,000/- per annum have been treated as OM subject to their fulfillment of other conditions of eligibility. Only valid certificates issued by competent authority under this category have been considered.

Now, therefore, it is notified that:-

- Tentative Provisional UT Merit List (PML) of the candidates, who have qualified NEET PG examination, 2021 and have registered through online mode and uploaded documents/categories up to the prescribed date is hereby notified as Annexure 'A' to this Notification, for objections, if any. The Annexure A includes Difficult Area Marks mentioned as \* in the Remarks column of Annexure "A".
- Provisional list of the eligible candidates who have applied under Difficult Area is also annexed as Annexure "B" to this Notification, as per SRO 48 of 2018 dated 30-01-2018 for objections, if any. However, the Difficult Area marks have been awarded to them as per the eligibility in accordance with the rules (SRO 48 of 2018 dated 30-01-2018 read with SRO 201 of 2006 dated 15-06-2006) on the subject and added to the score obtained by the candidates.
- The candidates under EWS, Sports, CDP, JKPM and P&B have been considered in accordance with the standards of eligibility for OM as already notified in the Information Brochure and other Notices/Notifications on the subject.

It is further notified that:-

- Any candidate desirous of making a representation, with regard to position assigned to him/her in the PML in the Annexure 'A' & 'B' to this Notification, may do so up to 22-01-2022 (till 02:00 p.m.). Such representations shall be disposed off in accordance with the rules. No representation(s) / objection(s) shall be accepted after the last date i.e. 22-01-2022 fixed by Board. In case no representation is received, PML notified by the Board shall be treated as final. Further, Board also reserves the right to make any corrections in the records as may be found necessary on the basis of documentary evidence;
- The Board shall notify the schedule for submission of online preference/counselling forms by the candidates separately; For this, the candidates are advised to be in touch with BOPEE website for regular updates.
- The candidate(s) shall be held personally responsible for submission of any false information. In the event of such information, coming to the notice of the Board at any point of time, it shall render such candidate(s) ineligible ab initio for consideration for admission in Medical Colleges, besides initiating action under law against them;
- The candidates are in their own interest, advised to go through the Information Brochure available on the website of the BOPEE before participating in the counseling process (filling up of online preferences) and also check their e-mail/SMS status.

Note:-

- The Annexures 'A' & 'B' to this Notification shall only be available on the BOPEE website;
- Subject to the conditions contained hereinabove, the Provisional UT Merit List (PML) shall be utilized for filling up of MD/MS/PGD Course seats only.
- The candidates who have not submitted / uploaded their domicile/ or whose EWS Certificates have expired due to delay in the counseling process, as the matter was subjudice in the Hon'ble Supreme Court, shall be provisionally allowed to participate in the counseling process and in case of allotment of a seat to them, they shall have to produce the same in the allotted Colleges along with other requisite certificates/documents at the time of admission failing which their provisional selection shall be cancelled on their own risk and responsibility.
- The other terms and conditions shall remain same as mentioned in e-Information Brochure and Notifications / Notices issued by Board from time to time.
