## !! Continuations from Page 1 !! NIA registers 'all...

Nadu, Telangana, and West Bengal, 10 cases related to Left Wing Extremism (LWE), five cases related to insurgents in the northeast, seven cases related to the PFI, three cases of gangster-terror-drug smuggler nexus, one case of terror funding, and two related to fake Indian currency notes (FICN), the spokesperson said.

The agency also filed a total of 59 chargesheets against 368 persons during the year; as per official data.

"Judgements have been pronounced in 38 cases in 2022, all of which have ended in conviction. 109 persons have been convicted to rigorous imprisonment and fine and six life sentences have also been awarded," the data said.

The overall conviction rate for the agency currently stands at 94.39 per cent, it said.

Officials said the agency was working on an "ecosystem kind of approach" and working in coordination with other central probe agencies and state organisations so that the entire terrorist infrastructure is dismantled.

"It is the vision of the Union home minister (Amit Shah) that the NIA should undertake an 'agency-like approach' and not just like a police station. This approach, like the FBI of the US, mandates a wider and extensive approach towards terror crimes and its modus

operandi," a senior NIA officer said.

The agency, created in the aftermath of the 2008 Mumbai terror attacks, has also increased its "geographical footprints" within the country as its branches have gone up to 18 now and this is expected to touch the two dozen mark by the next year; the officer said.

We are getting more manpower and looking to establish two full-fledged verticals to tackle cyber terrorism and human trafficking, he said.

The agency officials said the NIA was also registering "offshoot cases" where terrorist links emerge during the course of investigation by the state police or any other central agency.

It is part of our new standard operating procedure (SOP) that we get associated with any terror-like case from the beginning so that if it comes to us at a later stage, we are aware of its track, the evidence, and other inputs, they said.

The agency was also undertaking investigations that have cross-border ramifications and require the sleuths to travel to that country.

"For such probes, the NIA takes the help of the ministry of home and external affairs and we have, and we would, travel to those countries where our investigations are linked to," they said.

As per the official data, the NIA arrested 456 people this year including 19 absconders. Two accused were arrested upon deportation and one accused after extradition, it said. In 2022, eight persons were designated as individual terrorists under the Unlawful Activities Prevention Act (UAPA), the data said.

## Kashmir already special...

so much that the past inequalities based on where you were born, have ended.

"There is a natural law which says that if your character is good, if you serve people, then you get a special position which no law can take away from you. This is what the religion, what the Sufism teaches us, and this is what the UN declaration on human rights says," he told reporters.

He said there is no special provision for anyone on the basis of where he was born or in which religion he was born.

"Kashmir has so many special things and Kashmir does not need any special provision under the law. Kashmir has within itself a power; it has such learning, such crafts, such artisans, and so many qualities that you already have a special position," he said.

Earlier, in his speech, Khan said it was a misunderstanding that some law or constitutional provision makes people special.

"No one can become special because of a law, so take it out of your mind. The law does not give anyone a special position. Only those have a special position who have a special character; and special morals.

"But, I want to tell you that you have such a fortune that no one can end your speciality," he added.

The Kerala governor said the world has bestowed a great responsibility on India as the president of the G-20.

"So, in the year to come, we have to prove ourselves that a power-

ful India is a guarantee for world peace and not a danger for anyone," he said.

He said the world has become a global village and the era of dividing has gone.

"Our country was divided in 1947. If anyone has to strongly oppose any attempt to divide the people on the basis of region or religion, it is the people of this country, because we have experienced this.

"Which country in the world today can work only with its own people only? If you go to Saudi Arabia or the USA, people from all nationalities are present there. The world has become a global village," Khan said.

"The world is uniting and not dividing today. If we divide ourselves, then it is only our loss," he added.

## J&K Bank raises...

our expansion plans as envisaged in our strategy for business growth especially in the rest of the country by improving our risk bearing capacity substantially but will also go a long way in maintaining adequate capital buffers over and above the regulatory BASEL - III compliance requirement", he added.

Bank CFO P D Punjabi said the bank has accomplished the task well and it will be reckoned in the capital adequacy for the quarter ending December 2022.

The capital issuance Committee of the bank's board has approved the allotment of these bonds, a spokesman of the bank said.
