During the visit, the Commissioner undertook a comprehensive round of both blocks of the Home, interacted with the inmates as well as the management, and enquired about their well-being and any specific issues faced by them.

Dr. Dinesh Gupta, Secretary of the Home, apprised the Commissioner that although the Home has an intake capacity of 90 residents, it is presently able to accommodate only about 45

inmates due to the non-availability of lifts in both G+2 blocks.

He also highlighted the problem of public nuisance caused by shopkeepers and passers-by due to the absence of public urination facilities, resulting in unhygienic conditions near the windows of the Home.

Further, it was brought to the Commissioner's notice that the roadside drainage system in front of the Home and its gates is badly damaged and requires urgent repairs. The management requested proper repair of drains, installation of gratings on all sides for safety, and placement of suitable flower pots by JMC, which would also enhance the aesthetic appeal of the area.
