DSS expresses concern over damages to houses due to faulty widening of NH-44 in Ramban

■ **STATE TIMES NEWS**
RAMBAN: Th. Gulchain Singh Charak, former minister and President, Dogra Sadar Sabha (DSS), J&K, has expressed great sorrow and dismay over the damage caused to houses, cultivable lands, temples, schools, shops and commercial establishments of the people residing in Dalvas, Nashri, Kunfer, Peerah, Chanderkote, Karole, Neera and other villages of Ramban district due to unplanned execution of works by respective agencies, engaged under Jammu-Srinagar National Highway (NH-44) Widening/Four Laning Project in Ramban district. Charak in a statement drew attention of the Government towards the callous attitude adopted by Project Implementing Agencies in the matter; as well as by the Supervising Agencies. He

expressed an urgent need to redress the grievances of suffering population, besides attending to other serious environmental concerns. Charak referred to his recent tour of the NH-44 and affected villages in Ramban district for firsthand appraisal of the plight of the people and to take up the issue of damage to their property with the LG Manoj Sinha all their attempts to secure proper relief and compensation from local authorities had fallen on deaf ears so far. Charak said that after on-spot visits and also while interacting with the local people during the meetings held in different villages, he was shocked to find that a number of houses, temples and commercial establishments of the area in Dalvas, Thanari, Peera, Neera and other villages, had developed wide cracks in their walls and ceilings. Many had totally collapsed due to ruthless earthwork and cutting of slopes during road widening and the cultivable lands were sliding. It was personally observed at several spots in Dalvas village that the earth was cut and removed from about 60 ft. almost vertically beneath the foundations of many houses. The retaining walls constructed, were not more than 6 feet high.

Improper construction of culverts was observed at Chanderkot. "How can these structures survive?" he questioned. "Moreover, such works will continuously pose threat to their lives," He continued. Charak said that initially, the District Development Commissioner, Ramban and Tehsildar Batote did provide some temporary accommodation to affected families in government schools and Company quarters at Dalvas, but nothing further and no proper compensation has been paid either; as alleged by the people there. Gulchain Singh Thakur expressed dismay that the Mulba from earth excavations during road widening was being thrown directly into the River Chenab, thereby giving an open invitation to disaster in the form of serious floods due to blockade of the River and backflow of water. Charak appealed to the administration to have a proper mechanism for supervision of works and accountability under the Project to prevent any catastrophic impact in future. He appealed to the UT administration to provide proper compensation and permanent accommodation to the affected families so that they may soon start their comfortable life afresh.
