# NSS unit of GGM Science College organises Waste Management workshop

NSS volunteers posing with faculty members after the workshop.

## STATE TIMES NEWS

JAMMU: NSS unit of GGM Science College under the patronage of Principal Dr. Ravender Tickoo and guidance of NSS PO Dr. Deepali Mahajan organized Waste Management workshop on the fourth day of seven-day-long winter special camp.

Waste management deals with all types of waste, including industrial, biological, household, municipal, organic, biomedical, radioactive wastes.

The resource person Dr. Arti Sharma, Department of EVS beautifully explained the phenomenon of Waste management.

It refers to the various schemes to manage and dispose of wastes. It can be by discarding, destroying, processing, recycling, reusing, or controlling wastes.

The prime objective of waste management is to reduce the

amount of unusable materials and to avert potential health and environmental hazards.

There are eight major categories of waste management, and each of them can be divided into numerous sub-categories. The categories include

source reduction and reuse, animal feeding, recycling, composting, fermentation, landfills, incineration, and land application.

Having a proper waste management can result in the availability of valuable mate-

rials to reuse. Reducing, reusing and recycling your waste is important for the environment, but it can also be profitable. It decreases the amount of waste for disposal, saves space in landfills, and conserves natural resources.

NSS volunteers using the principle reuse, recycle and reduce with their efforts used discarded items and made best out of it. The items were displayed in exhibition and were appreciated by Prof. Preeti Dogra and Dr. Arti Sharma, Dept. of EVS.

The workshop ended with the pledge "Think before you trash it. Don't trash our future-recycle".

Under the guidance and efforts of Neeta Rawal, Principal APS BD Bari
