Speaking on the occasion, Mir hit out at the Narendra Modi government for selling what the Congress created in 70 years, and if the Centre was not stopped, an entire generation would get destroyed.

He said the Centre's plan to sell or lease out public infrastructure would only create a monopoly in key sectors, something that the previous Congress

led governments always avoided.

"If we do not stop them now, an entire generation will be destroyed. Before coming to power in 2014, BJP used to ask what Congress did during the last 70 years. The answer is the list of assets which you are now selling. While we built India in those 70 years, BJP is now busy selling India," he alleged.

Raman Bhalla appreciated Congress

govt in Rajasthan for announcing that the old pension scheme will be implemented again in the state and the appointments made on or after January 1, 2004 will benefit, the same will be implemented in J&K if Congress gets opportunity to serve people of J&K. If an employee gives 30-35 years of his service to an organisation, he should get security for his old age.

He appealed to border people to support Congress for vigorous fight to address public issues on priority. The Congress leader said he had worked as Cabinet Minister for 10 years and had always preferred that his work should speak for itself.

"We never divided people of J&K for political gains. We never tried to put curtains on the truth. Never allowed the J&K's prestige to be lowered," he said.
