No. : - SE/PMGSY/J/6867-73
Dated: - 07-02-2026

DIRECTIVE

Construction and Maintenance of balance work of road from L024 Tickri to Jamna, Package No. JK07-269, Block Basohli, District Kathua (Length 7.00 Kms)

- Whereas, the above-mentioned work was allotted to you vide NTP No. SE/PMGSY/J/4451-58 Dated 03-01-2023 and completed on 06-06-2023 Year Defect under 3rd Year Defect Liability Period.
- Whereas, during the site visit of the undersigned on 04-02-2026, it has been witnessed that the various stretches of road has been deteriorated due to choked side drains, blocked catch pits, damaged Hume Pipe Culverts (HPCs), eroded berms/shoulders, defective black-topped surface and poor condition of road furniture, thereby posing serious safety risks to the public and vehicular traffic. Due to your negligence regarding the maintenance of road from time to time, it can pose serious safety hazards to vehicles and pedestrians, including accidents or damage to vehicles.
- Whereas, the Executive Engineer, PMGSY Division Kathua has repeatedly reported that despite issuance of several notices, no effective maintenance has been carried out as per clause 32.4 of SBD and the condition of the road continues to remain unsatisfactory. Clause 32.4 reads as under:
- Potholes on the road surface to be repaired soon after these appear or brought to his notice either during the Contractor's monthly inspection or by the Engineer.
 - Road shoulders to be maintained in proper condition to make them free from excessive edge drop offs, roughness, scouring or potholes.
 - Cleaning of surface drains including reshaping to maintain free flow of water.
 - Cleaning of culverts and pits for free flow of water.
 - Maintenance of road signs, pavement markings and other traffic control devices.
 - Any other maintenance operation required to keep the road traffic worthy at all times during the maintenance period.
 - Maintenance of Cross Drainage Works
 - The maintenance activity includes clearing of tree branches to keep the sight distance visible all the time.
- Whereas, your continued failure to discharge contractual obligations despite repeated opportunities amounts to gross violation of contract conditions, SBD provisions and PMGSY guidelines governing maintenance during Defect Liability Period.

"Neglecting the "Road Maintenance" exacerbated the effects of rain leading to the deterioration of road conditions during rainy season. If the road would have maintained by you properly as per schedule and as per clause 32.4, especially "Cleaning of surface drains including reshaping to maintain free flow of water and the Cleaning of culverts and pits for free flow of water", the damage of the road was averted. The poorly maintained drainage system saturated the road base and subgrade which compromised the structural integrity of the road."

Neglecting timely maintenance of pavement also led to a range of consequences with various cost implications viz.

- Increased Repair Costs:** Small issues like cracks or potholes can quickly become larger and more serious problems if not addressed promptly. The cost of repairs escalates significantly for more extensive damage, as more materials, labour, and time are required to fix them. For example, failure to carry out resurfacing maintenance at the appropriate time soon leads to the need to carry out strengthening overlay works, which is at least twice expensive as resurfacing. Similarly, if the overlay is not carried out soon enough, major deterioration sets in and pavement reconstruction will be required, which is at least three times more costly than an overlay.
- Decreased Lifespan of Pavement:** Regular maintenance can significantly extend the life of pavement by preventing the escalation of minor damages. Without timely maintenance, the pavement deteriorates at a faster rate, leading to decreased lifespan of pavement
- Impact on Drainage:** If the required maintenance are not carried out, drainage will become ineffective and surface defects will worsen, both of which result in water penetrating the structure of the pavement and accelerate the pavement deterioration.

Keeping in view of the above, you are hereby finally directed to mobilize men and machinery immediately and maintain the road without any further delay, otherwise as per clause 33.1, 52.1 and 52.2(c) of SBD, your contract shall be terminated as your conduct causes a fundamental breach of the Contract.

"Treat this as final notice, no further correspondence shall be done from this office. If the work shall not commence within next three days, by or before 10th of February 2026, your contract shall be terminated as per clause 33.1, 52.1 and 52.2(c) of the SBD"

For non-compliance of the requirements of clause 32 of SBD regarding defects liability period and routine maintenance of roads for five years, on your part, the Executive Engineer PMGSY Division Kathua should be directed, as per clause 53.2(ii) to assess the cost of having the defect corrected, if the total amount due to the Employer exceeds any payment due to the Contractor, the difference shall be recovered from the Security Deposit and Performance Security as per clause 43.4 of SBD. If any amount is still left un-recovered, it will be recovered from any dues payable to the Contractor from State PMGSY works, any other State Government works including State Public Sector works executed by the Contractor.

Further, you are instructed to revalidate the Bank Guarantees and submit to this office within three days which expired on 02.07.2023. As per Clause 46.2 of SBD, the Performance Security shall be valid until a date 45 days from the date of issue of certificate of completion of construction work and maintenance work subject to the condition that if the Performance Security is in the form of a Bank Guarantee, the period of validity of Bank Guarantee could be one year initially; however, the Contractor would get this Bank Guarantee extended in such a way that an amount equal to five percent of the Contract Price is always available with Employer until 45 days after the lapse of the Defects Liability Period. If the Contractor fails to maintain the above Performance Security, the Employer would recover the same from any dues payable to the Contractor.

The matter should be treated as MOST URGENT.
