

## Navin discusses modalities for developing of Agri, allied sectors with IFAD

### ■ STATE TIMES NEWS

JAMMU: Principal Secretary, Agriculture Production and Farmers Welfare, Navin Kumar Choudhary, on Wednesday discussed modalities for development of agriculture and its allied sectors in Jammu and Kashmir with a team of International Fund for Agricultural Development (IFAD) and NABARD here at civil secretariat.

He asked the experts from both the organizations to formulate a long term plan for increasing the production of mutton and replacement of fruit trees with high density root stocks. He asked them to also look into the possibility of interventions that could be

Principal Secretary, AP&FW Navin Choudhary chairing a meeting.

made for promotion of fisheries and dairy sectors.

Principal Secretary informed them that the UT produces about 22000 metric tons of apple against which it has CA storage of only 2000 metric tons.

He further informed them that the government wants to provide end to end solution to growers so that not only their

productivity increases but the quality, storage, packaging, grading and marketing of the produce also gets boost. He urged upon the IFAD and NABARD to provide them the

solution for replacement of old, senile plantation with the new high yielding varieties in a shortest possible manner besides other interventions to enhance the farmers' income exponentially. He implored upon them to find out ways and means of enhancing its production in J&K thereby creating employment for the youth besides bolstering the local economy.

Principal Secretary also emphasized on the IFAD team to look into the avenues of

Fisheries development in the UT. The team asked about several policies and schemes in vogue here in J&K and sought details from the concerned officers. They suggested creation of a team of experts from both the sides who would coordinate with each other continuously for further understanding of the subject. It was given out that this collaboration would lead to formulation of a scientific strategy that would eventually lead to the desired goals in a time bound manner.
