

## Talent Corner

### Poem — Event Cancellation Chronicles

The event for which we all admired,  
Was cancelled because the God transpired.  
Everyone's feeling was hurt, especially of mine,  
Self-supporting like all is well, I am fine.

Plan was not successful according to the plot,  
It was cancelled with a disturbing thought.  
The two situations seem alike,  
Just like rain flooding the kite festival type.

No idea if the rain was muddying,

Or if my eyes were flooding.  
Heart was broken,  
Unexpressed dreams were depressed, unspoken.

All preparations seemed unrooted from depth,  
Hidden talent remained unexplored with death.  
The situation seemed untrue,  
Maybe through God,  
there might be some benefit in this abandonment too.

- Sahaj Sabharwal.

### Poem — I live with myself

Of all the love stories I've heard, seen or felt,  
The most cherished is the one I live with myself.  
I deify everything about me,  
Coz I know how to love every part of me.

The part of me in pain, And the part of me in vain.  
The part of me that is shattered, And the part of me that's battered.  
The part of me that's struggling, And the part that keeps tumbling.

The part that still believes in affection,  
And the part that considers it a misconception.

What I mean by loving yourself, Is to pamper yourself,  
To take better care of yourself,  
And make you reach your higher self.

Some days, even being that lover you look for, in someone,  
Before finding your 'special one'.

You are a love story in yourself,  
And you should always be your first pref.

Mannat Sabharwal.

## CAREER AID

### Dental Technology

In the field of Dentistry, besides dentists and dental surgeons, there is a great need for skilled personals who helps dentists in dental treatment. These essential members of the dental team known as Dental Technicians, carry out all aspects of technical work in the dental field i.e Dental Technology. Dental Technology is considered as a global profession which combines the art and science of Dental world.

Dental Technicians play a significant role in the delivery of dental health care products. It is these highly skilled people who design, construct, repair and adjust variety of dental appliances such as crowns, bridges, partial dentures, pre and post oral and maxillofacial surgical devices, orthodontic appliances in a laboratory and mouth guard. They also make anti-snoring devices and speech therapy appliances. Dental technicians are also known by the names Dental technologists and dental lab technicians.

Dental technology careers are for those who love working with tools and equipments and have an artistic ability to construct forms and designs. Dental technicians do not have direct contact with the patients. They work under the written prescription or direct communication with the dentists.

The duties of Dental Technicians are comprehensive and varied, since each dental patient's requirements are different. Their major duties and tasks include :  
Designing, fabricating, or repairing dental devices  
Preparing plaster models and moulds from dental impressions

Casting gold or metal alloys for bridges and denture bases  
Restoring natural teeth (crowns, inlays / onlays, veneers)  
Replacing teeth (bridges, partial and full dentures, dental implant prosthesis)  
Replacing oral soft and hard structures  
Moving, retaining and protecting teeth and

Aligning the jaw position

#### Eligibility

To practice as a Dental Technologist, one must need a certificate/ degree/ or diploma in dental technology. The minimum education qualification required for a course in Dental Technology is 10th / a high school diploma or equivalent. The techniques in the field are learned through on-the-job training and by moving up through experience.
