

## Talent Corner

### Poem — Write The Saga Of Your Life

Your intentions should be pure, be loyal  
Be like a king, fair with all, be royal

Be like a mountain who's strong, not weak  
Respect is earned, don't beg it from others, never seek

Help the poor, never be proud of your riches  
Be a person of principles, never believe in ditches

Knowledge is good but understanding is better

Write the saga of your life, prepare your own letter  
Life is precious, never waste it on fools  
Win the world with love and empathy, make virtues your tools

Stay away from anger, never believe in strife  
The biggest fights of the justice might be won with the patience and peace, not with the swords or knife.

Alka Sharma, Rehari Colony.

### Poem — The Real Life

World is a bottle  
Life is a wine,  
Death is a drunkard  
Fate is a sign.

God is the goal  
Age is the way,  
Name is the ship  
Love is the say.

Soul is the sum for the masters to meet,  
Purity is the cure for the doctor to treat.  
Peace is the asset for the journey to walk,  
Truth is the tongue for the masters to talk.

Knowledge of self is a caution to sin ,  
Self control is the lesson to win.

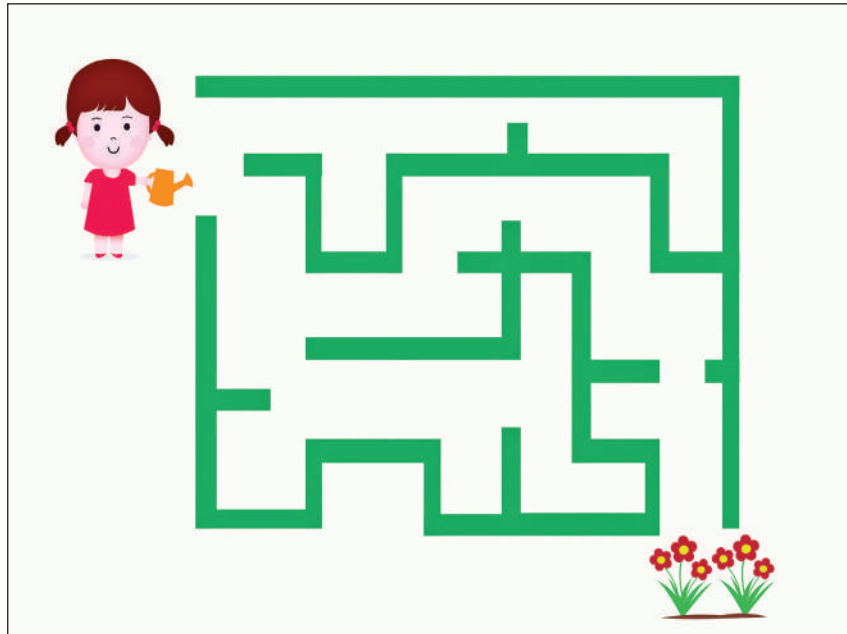

Sahajpreet Kour Khajuria

## CAREER AID

### Psychology

Psychology is a branch of science that deals with mental processes and behavior. It is the systematic study of human and animal behaviour, mind and thought. To pursue the career of a psychologist, one should have a genuine desire to help other human beings.

Psychology is mainly concerned with the way the mind works. Psychologists teach, practice and do research or work in one of the many fields of psychology such as social psychology, child psychology, occupational psychology, clinical psychology, educational psychology, experimental psychology, etc.

Psychologists need not have a medical degree. But they have to study several years to specialise in various aspects of psychology. One can pursue Psychology at the plus two level, graduate, post graduate and doctorate level. There are specialisations in many fields of psychology such as social psychology, child psychology, occupational psychology, clinical psychology, educational psychology, experimental psychology, etc.

Psychologists teach, practice and do research or work in one of the many branches of applied psychology. They apply their knowledge and techniques to a wide range of endeavors, including human services, management, education, law and sports.

#### Eligibility

Psychology is offered as a subject at the Plus Two or equivalent level with a combination of other social sciences and statistics. At the graduate level, one can study psychology as an Honors subject in most universities. After graduation, one can opt for an MA or MSc in Psychology; Social work or Counseling. Specialisations in the subject can be pursued at the post graduate level or at the doctoral level- M.Phil or Ph.D., after post graduation. At the master's and doctoral level, education becomes increasingly specialized.

Post graduate courses in psychology are offered only to students who have graduated with psychology. Post graduate and doctoral degrees in Psychology puts emphasis on research. If your interest is in practice, i.e. helping people with problems (counseling) you could opt for Psychology-related graduate programs such as education and social work
