Poem — Artificial Intelligence Replacing Organic Literature

Sometimes, it's demotivating,
Aggravating, anyone can create, it's grating.
But sometimes, it's motivating,
Elevating, editing and errors eliminating.

People seek quality, it's true,
It's true, AI provides, not a crime we construe.
The value of hard work, organic's wane,
Organic's wane, robots' gain, human effort's strain.

AI selects from cyberspace vast,
Cyberspace vast, yet can't invent, a contrast.
AI plays with words in its show,
In its show, like father, like son, AI continues to grow.

Artificial Intelligence, a literature feature,
A literature feature, a human-made creature.

Sahaj Sabharwal,
Jammu.

Poem — Insomniac

Its 2 AM but I am unable to sleep,
Memories of you again made me to weep.
My heart is bleeding but eyes are dry
You are impossible to forget how hard I try.

A thought of you suddenly struck my mind
Cute moments with you my brain starts rewind
Tears roll down like drops of morning dew
The only crime I did is falling in love with you.

I hide my face away from these tears

It hurts so much to be this sincere,
Your emptiness flows through my every vein
I am lost in my world slowly getting insane.

I am writing this rhyme to let you know
In this circle of life people come and go
I wish I could have more time to stay
Just wanna see you always till my last day.

Tarandeep Singh
SinghPura, Miran sahib.

Interior Designing

Designing is the blend of artistic talents and creativity. Design encompasses a number of different fields. It can be mainly divided into four ie, Fashion designing, Product designing, Graphic designing and Interior designing. Fashion designing deals with clothing and textiles, product designing with designing the products and graphic designing deals with designing for websites, movies, logos, signage, etc. Interior designing is the arrangement of living space i.e organizing, managing and planning of the interiors of rooms at homes, offices, retail shops, showrooms, hotels, airports, exhibition halls, conference centers, theatres, TV and film studios and commercial establishments etc. The objective of designing space is to achieve functionality and to create the right kind of atmosphere for the right budget. Interior designing as a specialisation became popular only in the last few years.

Earlier architects would do all the design work, both exteriors and interiors themselves. Of late people have become more conscious of the design, layout and placement of their interiors, for offices, factories as well as residences. This has opened the door for a large number of professional interior designers. Most interior designers specialise in a particular area. For example, some may concentrate on business design, while others focus on residential design and landscape designing. Still others may specialize further by focusing on particular rooms, such as kitchens or baths.

With a client's tastes, needs, and budget in mind, interior designers prepare drawings and specifications for non-load-bearing interior construction, this includes choice and decoration of walls, floors, roofs, choice and placement of furniture and other indoor objects, window treatments and other indoor objects, lighting and control of visual and sound effects.

Eligibility:

The 4 years Bachelor of fine Arts (BFA) programme offers specialisation in Interior Design. The school of Interior

design, CEPT, Ahmedabad offers 5 year professional programme in interior design to candidates who have passed +2 with 55% aggregate in Maths/Biology, Physics, Chemistry and English.

Many part time one year diploma course being run in every city, which require very minimal qualification. There are many private institutions offering certificate courses for interior designing, qualification required for such courses is SSLC.
