

Each JKian a future charity Ambassador: JKPS Kunjwani Principal

Principal Rajesh Rathore and students speaking in morning assembly at JK Public School Kunjwani.

STATE TIMES NEWS

JAMMU: "Charity is an act of kindness, wherein a person who has more than the required amount, contributes a part of surplus income for the fulfillment of the need of those who are less capable", stated Jaitek Singh from Grade X (D) of JK Public School (JKPS) Kunjwani in morning assembly on Tuesday.

"Charity is possible in various

forms. The broader meaning of charity is donating money or goods to an organization for the fulfillment of the purpose for which it has been established", he further added.

"It is essential to note that charity does not only mean contributing in a charitable organization. There goes a famous saying: Charity begins at Home. This means that it is not enough to contribute money to

the charitable organizations alone. Let's take an example, suppose if your domestic help at home is in dire need of money, you should help him, as he works for you only. No one in the society will help him as he is your responsibility but anyone can donate to a charitable organization", he summed up.

Principal Rajesh Rathore lauded the endeavours of the students from Grade XD for

creating a positive ambiance during the morning assembly.

He said, "Charity is the phenomenon that cannot be described in words. In fact, if we extend our helping hand to a down-trodden person with a pure heart, expecting nothing in return, the Omnipotent will certainly bless us with multi-folds of it. We must believe in charity, if we expect anything from God. Without giving oth-

ers, we have no right to ask for anything from the Lord Almighty." Invoking the GenNext, he sought a promise from the audience to be extremely successful in their professional lives ahead and involve themselves in variety of charity work. He appealed every JKian to be the future Charity Ambassador to make this world a better place to live in.

JKPS Panjtirthi celebrates National Technology Day

Glimpses of National Technology Day celebrations at JK Public School Panjtirthi.

STATE TIMES NEWS

JAMMU: To commemorate the achievements of scientists, researchers, engineers and all others involved in the field of science and technology, JK Public School (JKPS) Panjtirthi celebrated

National Technology Day.

Shelley Anand, the Incharge of the celebration, explained that Technology has a significant role in our day-to-day life and considering its contribution to the

strengthening of the economy; National Technology day becomes substantial.

"Technology helps us to stay organised, connected, healthy, and safe," said Principal of JKPS Panjtirthi, Suman Baabah.

She added, "Technology increases productivity and provides us with new insights into how the world operates."

She lauded the Technology day theme for 2022 "Integrated Approach

in Science & Technology for Sustainable Future".

National Technology Day celebrates the achievements and contributions of Indians to science and technology.

This day serves as a reminder of India breaking

into the elite group of nations with nuclear weapons.

JKians spread a message about the significance of scientific applications in the daily life of the people. The students prepared beautiful

posters on the theme 'Science: Technology And Innovation'.

They showcased their instinct knowledge of why and how of various scientific principles.

The Principal asked few questions to the students

regarding the celebration and the winner of the questionnaire round was awarded.

She motivated the students to observe the things happening around, think, question and satisfy your curiosity.
