Fortis Mohali offers deep brain stimulation, vagus nerve stimulation

Sharma,

STATE TIMES NEWS

JAMMU: In a significant medical breakthrough, Fortis Hospital Mohali has successfully treated patients suffering from Parkinson's disease and depression through innovative surgical interventions.

The first patient, a 64-year-old individual from Jammu, had been grappling with the debilitating symptoms of Parkinson's disease, including trembling of hands, arms, and head, along with stiffness of limbs and impaired coordination. Despite conventional medications, his condition continued to deteriorate. Seeking relief, he approached Dr. Nishit Sawal, Senior Consultant in Neurology at Fortis Hospital Mohali. A multidisciplinary team comprising experts such as Dr. Anupam Jindal, Dr. Prof Vivek Gupta, Dr. Vivek Agarwal, Dr. Abhishek Prasad, Dr. Bhupinderjit Waraich, and Dr. Mehraaj Sandhu recommended Deep Brain Stimulation (DBS) surgery.

This procedure involves implanting electrodes in the brain to produce electrical impulses, effectively alleviating motor complications associated with Parkinson's disease

Post-surgery rehabilitation at Fortis Mohali resulted in a significant improvement in the patient's health, enabling him to lead a normal life once again.

Dr. Nishit Sawal highlighted the transformative impact of DBS surgery, stating that it sub-

stantially improves motor complications in Parkinson's patients, reducing symptoms like trembling and difficulty in walking, while also reducing medication dependency.

In another case, a 70-year-old woman from Punjab had been battling severe depression and anxiety for nearly three decades, with conventional treatments proving ineffective.

After undergoing Vagal Nerve Stimulation (VNS) surgery, wherein a thin electrode is implanted on the chest, she experienced remarkable improvement in her depression symptoms. This surgical intervention, offered exclusively at Fortis Hospital Mohali, has shown promising results in patients with epilepsy, fits, depression, and anxiety.

Chakroi.

Prof. Tripathi laid stress on developing cost effective commercial tissue culture protocols for fruit plants such as strawberry, citrus fruits and banana. C.L. Sharma expressed gratitude to the University for training manpower of the Department in tissue culture which will boost production of planting material for meeting demand of the farming community. He promised the financial support to the University through projects for need based research endeavors. The Director Horticulture felt need

ed and offered on regular basis. Earlier, Prof. R.K. Salgotra welcomed the dignitaries and presented an outline of newly created research facilities, along with brief report of activities of the training programme. Prof. Salgotra conveyed his gratitude to the Vice-Chancellor for providing funds for establishing high-end research facilities under VC Flexi grant.

The activities of the programme were coordinated by Prof. Manmohan Sharma, Course Coordinator and vote of thanks was presented by Dr. Susheel Sharma.

faculty, and supporters who came together to celebrate excellence and innovation in beauty and fashion.

The event served as a platform to showcase emerging trends, talents, and the transformative impact of education and skill development in the industry. NISD Beauty & Designing Institute continues to be a beacon of inspiration and excellence in Jammu, fostering a community of creative individuals poised to make significant contributions to the global beauty and fashion landscape.
