Congress lashes out at Govt for power crisis; seeks immediate steps to improve power scenario

STATE TIMES NEWS
JAMMU: Jammu and Kashmir Pradesh Congress Committee on Thursday came down heavily on the UT Administration for the worst power crisis and warned the Govt. to take immediate steps to improve the situation before it further worsens. In a statement Chief Spokesperson JKPC Ravinder Sharma came down heavily on the Govt. for its failure to cope up with the situation of power crisis for the past several days in entire Jammu and Kashmir, while situation is worst in the hot Jammu Region. Chief Spokesperson Ravinder Sharma said that this kind of situation is unprecedented and never witnessed in the past.

It is admitted fact that power consumption is less in Jammu region while it provided more revenue to the government. At present Jammu region is facing scorching heat and worst affected due to power short fall. The Govt. has totally failed to improve the situation since the hot summer season in Jammu and power crisis has been the worst and this has badly affected the water supply system especially in rural belt of Jammu region, due prolonged power cuts while in rural areas it is more worst. He said that Govt. has imposed water tax in both urban and rural areas but there is no regular and proper supply of water during normal times. The Govt. has also imposed tax

on private wells, hand pumps and other individual sources of water developed by the rural population at their own expense of lacs of rupees to meet their family or Mohala requirements of water. The Govt. is fleecing the people in the name of unreasonable taxes of all sorts. The common power consumers are being served huge inflated bills while the big sharks are not being checked. The people don't get regular power but are getting regular inflated bills, which is most unfortunate. He also lashed out the Govt. over the delay in the regularization of daily wagers, need based, adhoc and contractual workers at the earliest, in all departments, in a fair manner.
