### Poem — Reality

Our greatest goodluck happens to be then;  
when strangers become to be our own.

And our greatest badluck happens to be then;  
when our own become to be strangers.

Our worst badluck happens to be then;  
when our own strong body does not become  
to be our own in the very old age.

Refrain from to be spendthrift avoiding  
artificial show-offs.

Having seen wealth of others if you feel not jealousy;  
then you will never feel disturbed your peace of mind.

The flute of bamboo has several holes in the shape of  
wounds;  
However, its pleasant and sweet musical voice pleases all.

Similarly noble persons having borne with several pains;  
provide all comforts and pleasures to others .

Appreciation of life is not at all judged by its length;

Whereas it is experienced on the very basis of its truth.

A short , intense ignition is considered better than  
burning a light of smoke spewing fire.

The home where there guests are honoured ;  
God abodes in very much to be there .

That home is grateful and blissful one .  
With the blessings of noble people to be in their company  
Ignobles also become to be the noble ones.  
So , always to be in the company of noble people .

Knowledge is above all wealth ;  
Since we keep our wealth in safe lockers .  
And knowledge keeps us to be safe .  
Love to sleeping invites to poverty (impoverishment).

Working hard consciously with open eyes;  
there is no likelihood of livelihood.

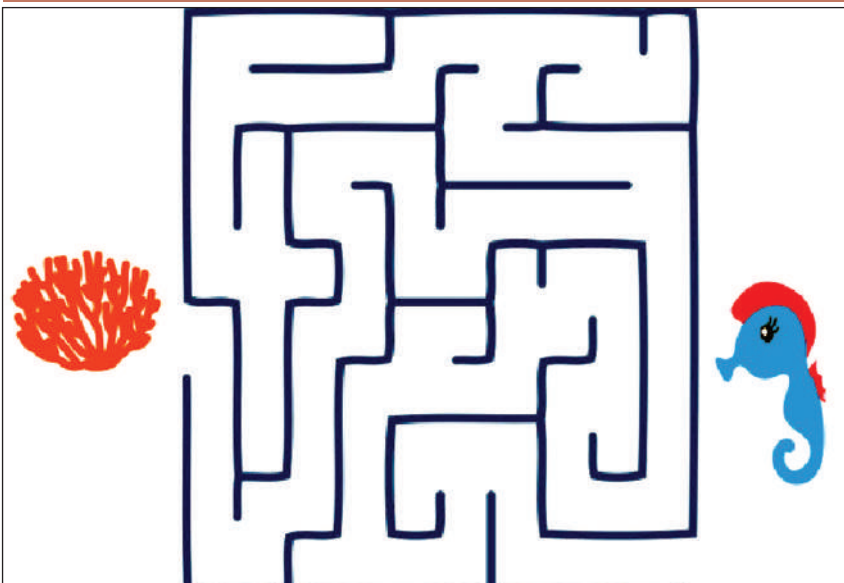

Tara Chand Bhagat  
(Talab Tillo, Jammu)

#### Paleontology

Paleontology is the study of history of life on Earth, with the help of fossils. It is the investigation of past life on earth, through the study of fossils. Fossils are the remains or traces of organisms such as plants, animals, fungi, bacteria and other single-celled living things that lived in the geological past and are preserved in the crust of the Earth. Hence we can say that Paleontology is not the study of dinosaurs alone as thought by many, it is the study of entire species of living things on earth with the help of fossils.

Paleontologists are scientists who study fossils, the remains of ancient organisms in order to investigate past life on earth or prehistoric life. They conduct research on prehistoric life forms and the evolution of plant and animal life through the examination of fossils. They use fossilized bones, shells and casts of animals to learn about extinct species. They also use preserved pollen grains and trace fossils of plants to determine the environment in which the species lived. A paleontologist may study fossils that range from tiny bacteria to giant dinosaurs, these fossils can be even billion years old. They use various scientific techniques to locate the fossils and identify pertinent facts about the fossils. The duties and responsibilities of a paleontologist vary depending on the field of work and the setting. Locating and excavating fossils is the main work of a Paleontologist, identification, research and sharing of findings are also equal responsibility of paleontologist. Research institutions, laboratories, museums and university departments are the major employers of paleontologists.

##### Educational Qualification:

Paleontology is a science related but broad field. Therefore a paleontologist needs to know physics, chemistry, biology, and geology. Most entry-level positions in paleontology require a master's degree in geology or earth science. A Ph.D. is necessary for research and college teaching positions. Knowledge of many languages is an added advantage to this field as the career requires lot of travel as

well as indoor work.

Subject areas of study include: stratigraphy, sedimentation, mineralogy, sedimentary petrology, invertebrate paleontology, ecology, invertebrate and vertebrate zoology, paleobotany, evolutionary biology and genetics.

##### Colleges and Institutes:

**University of Kerala : Centre For Geo-Information Science and Technology, Kariavattom**  
Kariavattom (Thiruvananthapuram Dist.) - 695581  
Kerala  
**Manipal Academy of Higher Education : Department of Science, Manipal**  
Madhav Nagar , Manipal (Udupi Dist.) - 576104  
Karnataka  
**Dudhnoi College, Goalpara**  
(Goalpara Dist.) - 783124

Assam  
**Devi Charan Baruah Girls College (DCB Girls College), Jorhat**  
KK Baruah Road , Jorhat (Jorhat Dist.)  
Assam  
**Sibsagar College, Sibsaagar**  
Joysagar , Sibsaagar (Sivasagar Dist.) - 785665  
Assam  
**Gargaon College, Sibsaagar**  
P.O. Simahuguri , Sibsaagar (Sivasagar Dist.) - 785686  
Assam  
**Jagannath Kishore College (JK College), Purulia**  
P.O. + Dist - Purulia ,  
Purulia (Purulia Dist.) - 723101  
West Bengal  
**Trivenidevi Bhalotia College, Asansol**
