### Poem — My New Home

Its my new start, Its my new hope.  
Its my new wish, Its my new home.

Its not only of sand and bricks.  
Its not only of cement and concrete.  
But Its of my blood and sweat.  
Its of my passion and dream.

Its the blessings of the God. Its the blessings of my Parents.  
Its the desires of my siblings. Its the desire of my children.

Its the thought of my wife. Its the dream of my life.  
Its the the plan of my elders. Its the guidance of my friends.  
Its the labour of my Workers  
Its the result of collective efforts.

Its my new home. Its my new hope.  
Its my dream Home, It my new Home.

Satish Chandel  
Sr. Lecturer (Physics), Kathua.

### Poem — Story of the spilled milk

It was the time of dawn,  
When rubbing my eyes, I was sleepy in my half yawn.  
First thing I did was going to the kitchen,  
Where this annoying duty to me, was given.

Waiting for the milk to boil ,  
Staring at it continuously was such a toil.  
Fed up of sitting there tight ,  
I finally distracted myself and started using my mobile.

It was at this moment , milk just got excited ,  
And spilled out without being invited .

I threw my phone immediately,  
And twisted the ear of gas knob impatiently.

I brought a cloth to quickly wipe off my blunders,  
Before anyone else in the kitchen , enters.  
And I know my skills of cleaning ,  
I'll be surely caught with a little bit of screaming .

This is how I spent my Sunday morning,  
Adventurous enough , without any prior warning .

Mannat Sabharwal.

## CAREER AID

### Dental Technology

Dental Technicians play a significant role in the delivery of dental health care products. It is these highly skilled people who design, construct, repair and adjust variety of dental appliances such as crowns, bridges, partial dentures, pre and post oral and maxillofacial surgical devices, orthodontic appliances in a laboratory and mouth guard. They also make anti-snoring devices and speech therapy appliances. Dental technicians are also known by the names Dental technologists and dental lab technicians.

Dental technology careers are for those who love working with tools and equipments and have an artistic ability to construct forms and designs. Dental technicians do not have direct contact with the patients. They work under the written prescription or direct communication with the dentists.

The duties of Dental Technicians are comprehensive and varied, since each dental patient's requirements are different. Their major duties and tasks include :

- Designing, fabricating, or repairing dental devices
- Preparing plaster models and moulds from dental impressions
- Casting gold or metal alloys for bridges and denture bases
- Restoring natural teeth (crowns, inlays / onlays, veneers)
- Replacing teeth (bridges, partial and full dentures, dental implant prosthesis)
- Replacing oral soft and hard structures
- Moving, retaining and protecting teeth and
- Aligning the jaw position

#### Eligibility

To practice as a Dental Technologist, one must need a certificate/ degree/ or diploma in dental technology. The minimum education qualification required for a course in Dental Technology is 10th / a high school diploma or equivalent. The techniques in the field are learned through on-the-job training and by moving up through experience.
