Poem —— Death is always inevitable

Everyone who is born has to die one day.
However, how does a death take place?

It is said to be three things by which a death takes place.
Number one time of death;

Number second place of death;
Number three with which death has to be taken place.

When meet these three things; death takes place.

Yesternight a friend of mine stepped out of his bedroom
put his foot on a frog of which its
last moment of death was awaiting.

The frog died on that very moment but a friend of
mine slipped on it to have a hair breathed
escape but got knee injuries.

Tara Chand Bhagat
(Talab Tillo Jammu)

Poem —— The Concert

My ecstatic symphony
Lies in your musical saga,
The music
Calms my soul;
Tranquilizes
My mind as well.

So, I'm waiting eagerly
And the auidance assembled
Waiting too
So desperately

For your live concert.

Hey bard, my sweet buddy,
Just break the silence now,
Sprinkle the charms of love everywhere

With the lyrics you composed,
Before the placid mist
Engulfs the show.

Alka Sharma,
Rehari Colony.

CAREER AID

Textile Technology

Textile industry is one of the oldest industries in India. The industry basically involves manufacturing of various types of fabrics both natural and synthetic, production of machinery, and planning and development of new technology. The industry has categorized three major areas of work namely research and development, manufacturing and merchandising. It provides direct employment to more than thirty million people.

In today's fashion scenario, textiles play an important role as costumes reflect ones personality. When we take the case of textiles, it not only include woven, knitted or printed fabrics used for making clothes but also materials used for furnishing, upholstery, carpets, lace etc. Production of this enormous variety of textiles necessitate the need for a career in Textile Engineering. Textile Engineering is that discipline of engineering which deals with the manufacturing of textiles. Textile Engineering is also known as Textile Technology.

Textile Engineering is the study of textile production, processing and it's compatibility for the use of common man. It combines the principles of engineering with specific knowledge of textile equipment and processes. This field of engineering draws inputs from various other branches of engineering like chemical, instrumentation, computer, structural, electronic and mechanical engineering. Textile technology/Engineering deals with the application of scientific and engineering principles to the design and control of all aspects of fiber, textile and apparel processes, its products and machinery. These include natural and man-made materials, interaction of materials with machines, safety and health, energy conservation, and waste and pollution control. There is wide scope for research in this area as the industry demands the need to improve currently available products and develop new ones.

Educational Qualification : There are several engineering colleges/polytechnics/universities in India that offer programs in textile engineering and technology. The basic eligibility criteria for B.E / B.Tech in Textile Engineering is 10+2 or equivalent examination with Physics, Chemistry, Mathematics and Biology with a fairly high percentage of marks in the aggregate. After pursuing bachelor's degree (B.E/B Tech), one can go for a post graduate degree; i.e. M.E/ M.Tech. and after that one can take up the Ph.D degree. Indian Institute of Technology, Delhi is a prominent institute in the field offering B.Tech/M.Tech/Ph.D programs.

There are varied branches of Textile Engineering. Textile engineers can attain specialization in any of these fields like Textile Chemical Technology, Fiber Science Technology, Technical Textiles, Computer Application in Textile etc.

Colleges and Institutes:
Graffiti School of Fine Arts, Indore
19/1, Race Course road, Near Smoke Cafe ,
Indore (Indore Dist.) - 452001
Madhya Pradesh
INIFD (International Institute of Fashion Design), Kalyan
A/204 Zojwala shopping center ,
Above Ramdev Hotel, Agra rd,
Kalyan (west) , Kalyan (Thane Dist.) - 421301
Maharashtra
Eridase School of Fashion, Udaipur
90/A, Saheli Nagar ,
Udaipur (Udaipur Dist.) - 313004
Rajasthan
Pearl Academy - Delhi Campus, New Delhi
A-21/13, Naraina Industrial Area,
Phase II, Near Shadipur Metro Station ,
New Delhi (Delhi) - 110028

Pearl Academy - Jaipur Campus, Jaipur
SP 38A, RIICO Industrial Area,
Kukas , Jaipur (Jaipur Dist.) - 302028
Rajasthan
Banasthali University : Faculty of Design, Banasathali
P.O. Banasthali Vidyapith ,
Banasathali (Tonk Dist.) - 304 022
Rajasthan
Pearl Academy of Fashion, Chennai
82,Sterling Road,
Nungambakkam, (Opposite Loyola College) ,
Chennai (Chennai Dist.) - 600034
Banasthali University : Faculty of Design, Banasathali
P.O. Banasthali Vidyapith ,
Banasathali (Tonk Dist.) - 304 022
Rajasthan
Pearl Academy of Fashion, Chennai
82,Sterling Road,
Nungambakkam, (Opposite Loyola College) ,
Chennai (Chennai Dist.) - 600034
Tamil Nadu
College of Engineering and Technology (CET), Bhubaneshwar
Ghatikia, Kalinga Nagar ,
Bhubaneshwar (Khurda Dist.) - 751003
Orissa
Rajasthan Technical University, Kota (Raj)
