

Ayushman Bharat Yojana-great boon for cardiac patients: Dr Sushil

STATE TIMES NEWS

JAMMU: The prevalence of heart disease and stroke has increased by over 50 per cent in India between 1990 and 2016. The contribution of these diseases to total deaths and disease burden in the country has almost doubled in last 25 years. Simultaneously Ayushman Bharat Yojana has come to rescue of patients suffering from cardiac ailments and has proved a great boon in performing life saving cardiac procedures free of cost thus fulfilling the concept of affordable and equitable healthcare.

With aim to create more and more awareness regarding the benefits of this programme as far as managing cardiac ailments is concerned a cardiac awareness cum health check up camp was organised under the guidance of Dr Sushil Sharma along with team of doctors and paramedical staff at Shiv Mandir Hall, Apna Vihar, Kunjwani, Jammu. More than 200 people were screened, diagnosed and evaluated for cardiovascular diseases and other health ailments on the

Dr Sushil Sharma along with his team of doctors examining patients at a camp.

occasion. Tests like ECG, Blood Sugar and HbA1C was

conducted and medicines were also given as per the requirements and simultaneously educated regarding the benefits of Ayushman Bharat Yojana and people were encouraged to avail treatment free of cost at par with any best cardiac centres worldwide.

While interacting with the patients, Dr Sushil stated that the Ayushman Bharat Yojana, now called the Pradhan Mantri Jan Arogya Yojana (PMJAY), aims to be one of the world's largest health insurance schemes. It is essentially a health insurance scheme to cater to the poor; lower section of the society and the vulnera-

ble population.

Since its inception major beneficiaries have been patients suffering from cardiac ailments as cardiac interventions usually used to cost in lakh which are now done free of cost in hospitals and same is being done in department of cardiology SSH Jammu where thousands of complex cardiac interventions have been done free of cost under this scheme, he added.

The Health Ministry body tasked with implementing the project, shows that since its launch, angioplasty and devices for heart failure, heart blocks and many high end procedures are done under the Ayushman Bharat Yojana for the benefits

of the patients, he added.

Prominent Members of the Area Sh Pritam Kumar (Corporator), Neeraj Tandon, Dheeraj Tandon, Col. Bikram Bhasin, Adv. B.R Chandran, Dr. Vijay Sharma and Members of Inner Wheel Club (IWC) appreciated the efforts of Dr Sushil and his team for conducting cardiac awareness camp in their locality.

Others who were part of this camp included Dr Ravinder Rattanpal, Dr Dhaneshwar Kapoor and Dr Syed Rahella. Paramedics and Volunteers include Kamal Sharma, Ranjeet Singh, Raghav Rajput, Maninder Singh, Harvinder Singh, Amandeep Singh and Akshay Kumar.

Residents flay JMC/PHE for broken streets, leakage of water pipes

STATE TIMES NEWS

JAMMU: To express great resentment against the worst conditions of streets in Bhardwali Colony, Talab Tillo, Jammu, the aggrieved residents bemoaned for the step motherly treatment meted out to the people of Bhardwali Colony, by Jammu Municipal Corporation (JMC) for dilapidated conditions of street lanes and PHE water pipes.

The sources informed that since last three four years, no one from JMC has bothered to repair and renovate drains and street lanes.

This has resulted into bad condition of streets filled with filthy water and potholes emitting

foul smell. The sources further told that the drinking water pipes of PHE Department continue to leak compelling the residents of this area to live in unhygienic conditions due to broken streets and drink dirty water due to broken pipes. They said that even the Corporator of Ward No 32 has proved hopeless who did not pay heed to keep our streets clean free from potholes and broken condition.

They appealed the authorities of JMC and PHE, Jammu to take immediate measures to improve cleanliness and repair street lane and drains, besides plugging the leakage of drinking water pipes in Bhardwali Colony, Talab Tillo.

During his field visit in entire Kandi area, CAO Kathua told that farmers of the monkey affected area are needed to guide for a valid and relevant alternative to continue their farming, so the castor crop (*Ricinus Communis*) locally named as "Arhandi" is grown to chase the economic as well as monkey menace problem. The oil extracted from the castor seeds has a great economic importance because of its big and wide national and international market so the farmers

can be benefited at a great extent, so the commercial growing of castor seed is very successful, Rai said. Monkey menace had resulted severe losses for the farmers of the Kandi belt over the last few years, but now it is in the interest of the farming community that Department has launched castor sowing drive in such affected areas as alternate crop.

He told that the Agriculture Department is in the field to guide the farmers for the promotion modern methods of cultivation in order to improve the quality production and provide the available best option to tackle the mon-

key menace and guide the farmers to make well earning through modern agriculture commercial activities. Farmer Balbir Singh also spoke to media, and given the credit to agriculture department for motivating him for castor seed sowing in his field. He said due to the monkey menace our entire area is badly affected, no crop can be sown in the area for the last many years due to which we are forced to leave the farming. On the occasion, Along with CAO, SDAO Kathua, AEO Pali Rakesh Sharma, AEA Sudhir Singh and AEA Sanjeev Kumar were also present.

The annual yatra to Machail Mata started on July 25 and is scheduled to
