

Verma chairs workshop on promotion of wood-based industries in J&K

■ STATE TIMES NEWS

JAMMU: Department of Social Forestry J&K in collaboration with Sher-e-Kashmir University of Agriculture Science & Technology (SKUAST)-Jammu on Thursday organised a one-day workshop to facilitate the consultation amongst stake holders to promote development of Wood Based Industries in Jammu as well as in Kashmir region.

The one-day event was chaired by Commissioner Secretary, Forest, Ecology & Environment Department, Sanjeev Kumar Verma.

While speaking on the occasion, he appreciated the initiative which could go a long way in identifying the strength areas and challenges in promoting the development of Wood Based Industries in UT of Jammu and Kashmir.

He emphasised on strengthening institutional linkage between Farmers, Industries and Research Institutions for sustainable growth of Wood Based Industries in the UT.

Speaking on the occasion, Vice Chancellor SKAUST Jammu, Dr. J.P Sharma, stressed upon diversification, value addition of agriculture products and adoption of secondary agriculture.

He also advised to focus on entrepreneurship development of rural youth of the district.

He suggested the scientists to work on collaborative projects with Social Forestry Department and insisted for

participation of officers from forest department in programme of KVKS of SKUAST-Jammu.

Forest trees and medicinal fruits have immense potential in kandi areas and are viable option as alternative source of income. Agroforestry helps in encouraging apiculture by planting forest trees as Bee Flora.

PCCF & HoFF J&K Forest Department, Dr. Mohit Gera informed that Farm Forestry has the potential of optimizing the production level of land and enhancing the profits to

the farmers.

The tree plantation on non-forest land including the private farm lands is an important source of raw material for Wood Based Industries after the imposition of ban on Green Felling in natural forests. In J&K and about 164 Nos. of Plywood Industries are presently functioning in the UT which requires continuous supply of good quality raw material. Presently about 80 lacs Cfts of Timber is imported by J&K to meet its domestic needs. Therefore, there is an important need to boost the

production of suitable timber species to bridge the gap between demand and supply. Agroforestry has a huge potential to generate employment opportunities, increase the income of farmers and boost the industrial activities as has been demonstrated in the states like Haryana, Punjab and western UP.

PCCF/Director, Department of Social Forestry, J&K, Roshan Jaggi while delivering his opening remarks informed that Department of Social Forestry in last four decades has played key role in estab-

lishing the culture of Tree Farming outside the Forest areas which has been a major source of raw material to Wood Based Industrial units like Plywood, Plyboards, Cricket Bats, Pencils, Joinery and other allied fields. To meet the growing demand of Wood Based Industries, Department of Social Forestry is taking initiatives to involve Progressive

Farmers / Growers in adopting innovative models of Agroforestry emerging technologies which has the potential to boost economic activity, generate employment opportunities apart from environmental benefits.

The participants were drawn from Forest Research Institute, Dehradun, Himalayan Forest Research

Institute (HFRI), SKUAST Jammu and Kashmir and also representatives of various wood-based industries based in Kashmir as well as Jammu region. Large number of Progressive Farmers/ Tree Growers and prospective industry developer showed keen interest during the day long discussion.

The various issues like avail-

ability of quality planting material to growers, enhancing the productivity through improved technology interventions suitable mix of plant species to enhance the economic viability of Agroforestry practices and developing market facilities to growers were deliberated and recommendations were made based on inputs of stake holders.
