Dr Jitendra calls for linking StartUps with MSMEs

■ STATE TIMES NEWS

NEW DELHI: Union Minister, Dr Jitendra Singh on Friday called for linking StartUps with Micro, Small and Medium Enterprises (MSME) sector and said that the Government headed by Prime Minister Narendra Modi is taking all measures including necessary policy changes to strengthen the MSME.

Addressing the "8th India International MSME & StartUp Summit and Expo", as chief guest, Dr Jitendra said, this sector has played an important role in shaping the Atma Nirbhar Bharat and added that the government has substantially increased the budget in the last eight years to strengthen the MSME sector. The Minister also informed that the government is encouraging unique local products to reach the global markets and, in the process, strengthening the Indian economy. Dr Jitendra reminded the audience about the commit-

ment of the Modi government for making MSMEs globally competitive. Referring to the introductory remarks of Rajnesh Goenka, Chairman, MSME-DF, wherein he said that the MSMEs account for almost one-third of India's economy and over 11

crore people are connected with the sector, Dr Jitendra said, even the Union Budget 2022-23 has presented a comprehensive package of policy announcements aimed at supporting the recovery of MSME, hit hard by COVID pandemic. Dr Jitendra Singh was pleasantly surprised to find huge number of Agri MSME stalls and pointed out that a new wave of AgriTech start-ups has emerged in the country in the last few years and these start-ups are solving problems related to supply chain management, improper infrastructure and inability of farmers to access a wider range of markets. Dr. Jitendra Singh concluded by saying that one can't visualise India @2047 through the prism of 2022. He said, Narendra Modi's 8 years as Prime Minister gave India vision for 2047 and laid the roadmap for the next 25 years of Anrit Kal which would witness the ascent of India as a front-rank nation in the world.

In 1950 it was expected that the leadership in Independent India would be able to make India free of undue neglect meted to some castes / sects of Indian society who were suffering from social and educational backwardness. But the Indian leadership in democratic India failed to stand to the expectations of the "elders" and going by the amendments that have been made to the Constitution of India over 7 decades the social and educational backwardness that was targeted to go in ten years by Indian elders like Baba Saheb Bhimrao Ramji Ambedkar i.e. by 1960 has not gone and so far the constitution has been amended 7 times so as to extend the provisions beyond 2020 (95th amendment act 2009, whereby the reservation was extended upto 25 Jan 2020 and The Constitution One Hundred and

Twenty-Sixth Amendment Bill, 2019 was introduced in Lok Sabha by the Minister of Law and Justice, Mr. Ravi Shankar Prasad, on December 9, 2019 extending reservation of seats for Scheduled Castes (SCs) and Scheduled Tribes (STs) for another 10 years by 104th Constitution Amendment Act, 2019. More so the provision of reservations for some classes of Indian Citizens was kept only on the basis of social & educational backwardness and the economic backwardness as focus had no where been kept in sight in 1950 while drafting Article like 334 Other Backward Classes) also for the purposes of reservations in legislature / services / education have been extended beyond 10 years not only for those who were in 1950/1956 specified as the castes, races or tribes or parts of or groups within castes, races or tribes for the purposes of COI to be deemed as Scheduled Castes or who were specified as the tribes or tribal communities or parts of or groups within tribes or tribal communities for the purposes of COI to be deemed as Scheduled Tribes but

it is worth taking note here that the special provisions like reservations in legislature / services / education have been extended beyond 10 years not only for those who were in 1950/1956 specified as the castes, races or tribes or parts of or groups within castes, races or tribes for the purposes of COI to be deemed as Scheduled Castes or who were specified as the tribes or tribal communities or parts of or groups within tribes or tribal communities for the purposes of COI to be deemed as Scheduled Tribes but

Even the communities who believed in Islam and Christianity are demanding now religion based reservations since they are still 'shyng' from honestly accepting that it was not only the Hindu society where social discriminations were faced by the weaker sections. Had the Christians and Muslims accepted that the weaker sections there too faced social neglect, may be no one would have objected to including

castes, races or tribes or parts of or groups within castes from amongst them also in Schedule of Castes for the purposes of COI there by increasing the percentage of reservations for the SC beyond 15 %, say 18% in case Muslims , Christians and like too have social discriminations amongst them as had been alleged to be there in Hindu society in pre 1947 times.

But instead they have been demanding reservations including that in services and education institutions on basis religious minorities (Christian, Muslim) well knowing that in the Constitution of India there is no provision / scope for such reservations and that too ignoring the fact as enshrined in the Constitution of India even for SC/ST as well under Article 334 of COI (1949) and that too for 10 years only.

On one hand the religious minorities talk of protections given to them by the Constitution of India and on the other hand they demand reservations on the basis of religion for which there is not even a bit of provision in the 'same' constitution.

Let 'others' too accept social discriminations amongst them like Hindus, SC reservation can go beyond 15 pc

■ DAYA SAGAR

Article 334 of Constitution of India (1949) said "Reservation of seats and special representation to cease after ten years"-Notwithstanding anything in the foregoing provisions of this Part, the provisions of Constitution relating to - (a) the reservation of seats for the Scheduled Castes and the Scheduled Tribes in the House of the People and in the Legislative Assemblies of the States; and (b) the representation of the Anglo-Indian community in the House of the People and in the Legislative Assemblies of the States by nomination, shall cease to have effect on the expiration of a period of ten years from the commencement of this Constitution: Provided that nothing in this article shall affect any representation in the House of the People or in the legislative Assembly of a State until the dissolution of the then existing House or Assembly, as the case may be." But Reservation of seats and special representation are still there even after nearly 70 years, what does this indicate? From the contents of Art-334 even an 'infant' mind can well read that intentions of the Constituent Assembly/ the elders who drafted the Constitution of

India keeping their special provisions for the time being support to be provided to some socially & educationally (administratively) weaker sections of the Indian society in Independent India so as to free them from the shackles of social and educational backwardness (particularly all forms of discrimination of caste and creed that 'only' the Hindu society had boldly accepted to be there in when constitution of India was being drafted). It will not be out of place to mention here that the final touches to the draft constitution (B. N. Rau, an Ex ICS officer who is also said to have remained PM of Princely State of J&K for some time) was appointed as the Constitutional Adviser to the Constituent Assembly in 1946 for structuring the Constitution and initial draft was prepared by February 1948, thereafter it was on 29 August 1947 that a 7 member Drafting Committee was appointed with Dr B. R. Ambedkar - the then first Law Minister of Independent India - as the Chairman) as was processes/ debated / decided by the Constituent Assembly of India were given under the guidance of Baba Saheb Bhimrao Ramji Ambedkar. In the circumstances that prevailed in

1947 there could have been no one better than Baba Saheb who could have the real feel and judgement of the quantum of support to be provided to some segments of Indian society so as to strengthen them socially and educationally.

In 1950 it was expected that the
