### Poem — Peace Vs Piece

Peace is all powerful.

Peace crosses all the boundaries of space and time.

Peace is deeply linked with entirety of human life.

Peace is a complete ideology in itself.

Peace is the spirit of brotherhood.  
Peace is what humanity has piteously cried for age after age.

Lord Buddha, Sant Kabir, Guru Nanak Dev, Guru Ravidas, Swami Vivekananda and Mahatma Gandhi were great lovers, messengers and ambassadors from God spreading principles of peace in the world.

Whileas peace is now being cut into pieces.  
Today's world of Science and Technology believes in the destruction of peace and wants

world cutting into pieces.

Grabbing the land, territory of other countries by way of disturbing peace of peace loving ones.

India is a great peace loving country in the world as it is spreading its peaceful message to all the countries of the world.

God is all powerful and Omnipotent.  
If the powerful countries want disturbing peace

He(God) can destroy the world within seconds.  
Let us be lover of peace and hate the policy of 'Peace' to be cutting into 'pieces'.

Tara Chand Bhagat,  
(Talab Tillo, Jammu)

### Photography

Photography is a unique and creative medium of self-expression. It is an art form requiring aesthetic sense as well as technical expertise. A hobby that can be made profitable by going professional by the talented.

With the explosion of the communication network, the growth of advertising and media and the fashion boom, and digital photography, it has now become a profession with great commercial value. Photos are an essential part in both print and electronic media. So this is an area offering great scope for those who have an interest and attributes needed to be a professional.

Being a creative medium, photography requires more of inherent talent for success than formal training. However training hones the inherent skills and help to shine in this competitive field with various specializations like portraiture, fashion and advertising photography, journalistic photography, wildlife and outdoors photography etc. Creating a commercial quality photograph requires the skill for choosing and presenting a subject in a way to achieve the maximum effect with the appropriate equipment. One should have a definite know how of the angle, lighting and the latest equipments and technology to make a name in the field.

#### Educational Qualification:

There are no specific academic requirements for full time courses in photography, however, candidates who have cleared the 10+2 exam are eligible for the diploma/certificate courses in photography. There are many students who learn photography along with their college degree, doing a part-time course. Besides the Certificate and Diploma courses in the field, Photography is also offered as an optional subject for a bachelor's degree in Fine arts. Some institutes offer full fledged B.A courses in photography of three year duration.

Besides the academic requirements, having a background in computers or electronics, related work experience and train-

ing is beneficial for making a break in the field.
