Poem — Mobile Phone Addiction

In 21st century children are playing mobile games,
And just ignoring outdoor games.
They forgot that what is gully danda and cricket ,
And in mobile games they are just wasting
their hours and and minutes.

They just mentally disturbed just because
they are controlled by mobile phones,
And when we took phone from then they feel that they are alone.
They are anxious to find new games,
But when they didn't find thier game they just broke their phones.

They are in extreme anger, and shows thier roar
by crying when we took phones,
They don't play any game outside because
they are just got engaged with mobile phones.

My request to all parents in this that if they want to save
the future of their child they must sent outside to play,
So that they don't engaged with phones which can made thier day.

Swastik Singh Rajput, 8th D
Stephens International Public School.

Poem — Let the chariot of life runs

No matter, if you are introvert or shy
Always speak the truth, never make a lie
Health is precious, one cannot buy
Keep doing good work until you die

Raise the standards, excellent and high
Not a victim you are, don't take sigh
Focus on the target, just keep an eye
Others' matters, none of your business, don't spy

The flower of life needs to be bloomed, not dry
Be like a bird, spread the wings and fly
Work is worship, get set, wear suit with tie
Never give up my dear, stars will be yours, touch the sky

Your morale should be high, even above the sky
Let the chariot of life runs, drive it carefully, ply.

CAREER AID

Interior Designing

Designing is the blend of artistic talents and creativity. Design encompasses a number of different fields. It can be mainly divided into four ie, Fashion designing, Product designing, Graphic designing and Interior designing. Fashion designing deals with clothing and textiles, product designing with designing the products and graphic designing deals with designing for websites, movies, logos, signage, etc. Interior designing is the arrangement of living space i.e organizing, managing and planning of the interiors of rooms at homes, offices, retail shops, showrooms, hotels, airports, exhibition halls, conference centers, theatres, TV and film studios and commercial establishments etc. The objective of designing space is to achieve functionality and to create the right kind of atmosphere for the right budget. Interior designing as a specialisation became popular only in the last few years.

Earlier architects would do all the design work, both exteriors and interiors themselves. Of late people have become more conscious of the design, layout and placement of their interiors, for offices, factories as well as residences. This has opened the door for a large number of professional interior designers. Most interior designers specialise in a particular area. For example, some may concentrate on business design, while others focus on residential design and landscape designing. Still others may specialize further by focusing on particular rooms, such as kitchens or baths.

With a client's tastes, needs, and budget in mind, interior designers prepare drawings and specifications for non-load-bearing interior construction, this includes choice and decoration of walls, floors, roofs, choice and placement of furniture and other indoor objects, window treatments and other indoor objects, lighting and control of visual and sound effects.

Eligibility:

The 4 years Bachelor of fine Arts (BFA) programme offers

specialisation in Interior Design. The school of Interior design, CEPT, Ahmedabad offers 5 year professional programme in Interior design to candidates who have passed +2 with 55% aggregate in Maths/Biology, Physics, Chemistry and English.

Many part time one year diploma course being run in every city, which require very minimal qualification. There are many private institutions offering certificate courses for interior designing, qualification required for such courses is SSLC.
