

‘Parent-Teacher Meet works as bridge between parents and teachers’

■ STATE TIMES NEWS

JAMMU: The Parent Teacher Meet at JK Public School (JKPS) Panjirthi-a platform where teachers and parents love to come together and work together to support learning and well being of children .

Parent Teacher Meet for classes 1st to 10th was organised at JKPS Panjirthi in three sessions.

This two way communication promoted the bond among parents and teachers and led to innovative ideas to contribute to the overall development and well being of child.

The class teachers handed over the answer sheets of 2nd unit examination to the parents to promote transparency and to enable the children and their par-

ents to ensure that the child does not repeat the same mistakes in future.

The best part was that all the subject teachers were available to parents to discuss their child's performance at length which helped them to overcome their shortcomings.

The Principal of JKPS Panjirthi, Suman Banbah educated and guided the

parents as to how they should be handling their children to get the best out of them in all spheres whether it is discipline, academic, games and their behaviour both at home and school.

Each parent was dealt individually. She explained few tips to the parents to inculcate certain required qualities and values among

children and to increase their concentration power and confidence. The parents felt relaxed and stress free after the counselling session. They were determined and clear as to how they have to solve the problems of their children without punishing and burdening them and how to extract the best out of them.

Glimpses of Parent-Teacher Meet at JK Public School Panjirthi on Wednesday.

SWITCH TO SMART METERS

SMART METER FAQs EXPLAINED

Do Smart Meters run faster than the earlier meters?
No. This is just a misplaced notion. All meters actually record the energy that has been utilized by the consumer.

How are Smart Meters beneficial?
Smart Meters are the next leap in technology. They automatically post user consumption every 15 minutes. While it helps in automatic bill generation on one side, it helps the consumer to understand his usage pattern better on the other side. The fact that manual intervention will be totally removed from the bill generation process, is going to be the icing on the cake. Consumers in general are going to see the benefits of the whole process eventually. Also, it allows for additional parameters like Maximum Demand, Voltage Profile and Current Profile for installations to be viewed and analyzed remotely.

- Accurate Billing
- More Savings
- No Manual Reading
- Real-time Monitoring
- Quick Resolution

Smart Meter Smart Shuruat

Why I am not able to see my live readings?
Live readings are available for Smart Meters only.

Why have I received an inflated bill after the installation of Smart Meters?
The bill generation for the month in which the smart meter was installed is based on two parts; the consumption recorded by the earlier meter and the consumption recorded by the Smart Meter. The inflated bill most likely is caused due to the residual reading found on the existing meter.
