Madhu Paramhans delivers religious sermons

■ STATE TIMES NEWS

AKHNOOR: Sadguru of Sahib Bandgi, Madhu Paramhans Ji Maharaj on Sunday at Sungal Road, Akhnoor, enthralling the Sangat with the nectar rain of his discourses, said that one worships water. We are not against water. He is life-giving. But water itself is not supreme. Anything that changes its form is not permanent. He is eternal and never changes his form. Some worship fire. But even fire is not the ultimate. Some worship Vayu. Some worship the earth. Some worship the inner. Had it not been for zero, my words would not have reached you. All these have importance in our life. That's what the research scientists are doing. This is what the sages and sages did. wanted to find the origin.

There is one power, which is supreme. Nanak Dev is saying on this that worship that one. Why worship the one who takes birth and dies? Scientists are also searching for that one power. They are trying to find out who is the one who created everything. Seeing the structure of the earth, the thought came in the mind that who is the creator. After all, who is the creator

of this whole structure? Some have accepted that there is someone, but are not able to understand. Scientists are looking for who made all this. Dadu Sahib is talking about man's disorientation that some are engrossed in saguna, some are engaged in nirguna. But what Kabir Sahib is saying is strange. He is not in either of these. After all, what kind of power is that? Who is it. If we see, a person is engaged in two devotions. Saguna and Nirguna.

After all, how could the saints see that power? There are telescopes that can see millions of miles into space. Earlier our scientists used to see through bamboo tubes. Wanting to see those things sitting on earth. Scientists have not been able to see physical things yet. Then what is his point? After all, how did the saints see the inner world?

Your soul is engaged in virtuous things. Whatever scene you are seeing, is the power of the soul. Listening, understanding, all are the power of the soul. Saints have gone there. Here Sahib is saying that he saw the play of the universe in the body. It is also written in the scriptures that the soul is in the Agvachakra. The breath

we are taking is the energy of the soul. She is taking the soul. This reaches the navel and changes into 10 forms. The body is running on them only. We also say that life has passed away. Prana is operating this body. Whatever work is being done is by the power of the soul. When one resides in this void, one gets great strength. No one can travel as much as that body travels in a moment. Removing your soul from the entire body and walking in the void. The wind is called turning and moving in the void. This is called living and dying. It is a good effort by scientists. He is doing well in physical. But that point can never be reached. They have a circumference. You take my word that physical life is only on this earth and nowhere else.

Sahib established Surti Yoga. With Surti he can see the country. One second travels more than millions of miles. There is so much speed in your end carrier body. This is why sages have practical knowledge. Some are now considering trees also. But the tree is not a supreme being, is it? Sahib is saying on this that he is irrigating the leaves and has dried up the root.
